## THE DETECTIVES ON TRIAL.

THE CHARGES AGAINST JAMES IR-FING AND PHIL. FARLEY.

The Story as Taken from the Lipsot George Macdonnell in Newgate Prison-The Tell-Tale Letter to "Friend Phil." - The Present from the Bank of Engined Forger.

The trial of Capt. James Irving and Deketive Philip Farley, on the charges submitted to the Police Board for the Bank of England, to the Police Board for the Bank of Encland, was begun at 10 o'clock vest-rday morning. In the trial room in the Police Central office. There was a large attendance of witnesses and spectators, among them Messrs, Clarence A. Seward, Da Costa, E. M. Archibald, the British Consulgereral, United States Commissioner Gutman, Alderman Morris and Kehr, Judson Jarvis, the Druer of Arrest Sheriff, Assistant Alderman Kehoe, Dr. Mosher, the Deputy Health Officer, three or four Post Office Custom House, and Marshal's officers, and a number of police captains and detectives, who watched the proceedings with attention. Commissioner Smith prended for about an hour, assisted by Commissioners Russell and Gardner. Commissioner Charlick staved away, and Gen. Duryea did not take his seat udtil a few minutes before 11.

Immediately after his arrival Commissioner Smith out the room and did in treturn. His place as presiling officer was taken by Commissioner Tombit hout the room and did in treturn. While they were at work, Mr. Hawley announced that all other police hearings were adjourned until the loth proximo, whereupon a large number of persons went out. Mr. Seward subsequently read the charges as amended by the prosecution. They were in effect that the solicitor for the Bank of England, under instructions from London for Macdonnell's arrest, employed Pinkerton's Detective Agency to make the arrest; that Capt. Irving and Detective Parley showed the solicitors a telegram from Inspector Bailey of London; that the officers resented the employment of Pinkerton's men, and refused to act with them; that the solicitors telegraphed to the Bank's solicitors in London whout the difficulty, and were fold to use their own discretion; that they undertook to have Capt Irving and Detective Fariey act with

A GREAT FIRM SUSPENDED.

STOPPAGE OF THE LARGE FAC-TORIES OF THE SPRAGUES. A Calamity that will Pinch the Poor Operatives-What the Merchant Princes 541-The Feeling in Wall Street-Rumors of Other Pailures and Suspensions.

The rumors of financial weakness in the commission house of Hoyt, Spragues & Co., of 107 Franklin street, which had been in circulation among the wholesale dry goods merchants several days, culminated in the report of the ever, had been so far anticipated that its an-nouncement created no surprise and had no Hoyt, Spragues & Co., in which the A. & W. Sprague Manufacturing Company has no direct

interest.
"I do not think that our suspension will be of long duration," said Mr. Hoyt soon after the announcement, "but of course that will depend very much upon our creditors. All we want is time, and if an extension is granted we shall go on without much interruption to our business. I am not prepared to make any statement of our officers just now, further than that our assets are vastly greater than our liabilities. Our trouble arises from the money stringency and the depressed state of trade. Our own suspension is

OUR DEBTORS.

We are preparing a statement to lay before our crediters, who have not as vet held any meeting or signified what course they intend to pursue. Up to 7 o clock last night we supposed that arrange ments had been perfected by which we could avoid suspension. A million and a half had been raised, but the negotiations fell through at the last moment. Before the financial stringency the prespects were never better for a large fail trade. The saies, too, were all for actual consumetion, and not for speculation; but afterward the demand tell off so much that it became useless to manufacture.

A messenger from Providence arrived in the forencen, amouncing the A. & W. Sprague Manufacturing Company's necessity for suspension. After a consultation with him, Mr. Hoyt sent a message to several of the banks to stop payments on the firm's paper. Mr. Hoyt is very wealthy, his reputed assets being several millions in excess of the liabilities of the firm, but so tied up as to be at once unavailable. It is said that if the Providence firm had withstood the pressure he could have obtained assistance chough to have kept the New York firm affoat; but that the former's failure necessitated that of the latter. The rumor was current yesterday that two millions of Hoyt, Sprague & Co.'s and the A. & W. Sprague Manufacturing company's paper was held in this city, mainly by banks, to which it has always been attractive. The New York firm keeps its account with the Manhaitan Bank, but the amount of paper in its possession cannot be ascertained. Several foreign banking houses are reputed to be heavy holders.

CONTRADICTORY RUMORS FROM PROVIDENCE.

Late in the aftermoon the following despatch was received from Providence:

It is understood that A. & W. Sprague, in this city, do not suspend to-day, not withstanding the failure of the New York house. Upon application at the office of the Messrs Sprague, the information is furnished that the committee of investigation into the affairs of the A. & W. Sprague Manufacturing Company, appointed by representatives of the city banks, will be prepared, at a meeting to be held to-morrow morning, to make a report which, it is thought, will be highly satisfactory to the cred for sof A. & W. Sprague, and Hoyt, Sprague & Co. The surplus of avail le procerty, at a low Vaination cover all cuissanding liabilities, upon the accept-

THE EFFECT ON THE COTTON AND PRINT MARKET.

"These failures have been "discounted by the trade," and Mr. H. B. Claffin, "and so the immediate effect is not very marked. Still there is no doubt that they will be seriously feltexacily how I had rather not say. Predictions as to trade are always unreliable, no matter who makes them. The firms, however, are forty years old, have ample resources, and I do not doubt that they will go on."

H. B. Claffin & Co. are the largest dealers in the Sprague prints. Among the jobiers the effect of the failures is to increase the depression. The demand for cotton fabries and prints, which has been getting lighter and lighter, is further lessened. David S. Brown & Co., Law, Harriman & Co., Anthony & Hall, and other large firms express the opinion, however, that the effect of closing the mils will finally be to improve the market and brace up failing prices. The reduction in prices has been from five to ten per cent, within two weeks, and a diminished production may arrest their fail before they reach ruinous figures. Ante-war figures have been reached, yet the costs of cotton and labor are about double. The glut of goods is considerable, as most of the mills were kept running until last Saturday, while the sales had steadily failen off. The Sprague mills at various points in New England; the American Print Works at Fall River; Garner & Co.'s mills at Cohoes, Haverstraw, and Wappinger's Falls, and several others are now idle. Another street topic was the end of the loan
certificate plan, which ceases its operation today. The stronger banks now disfavor the pooling system, in which they have been obliged by
the majority to participate since it was accepted
as a relief measure. They say that its operation
has mainly strengthened those banks that were
engaged in speculative loans, and tended to
oripple those that had been doing a strictly conservative business. The idea of many is that,
with the end of pooling, depositore who have
been locking up their currency will return it to

nouncement created no surprise and had no noticeable effect upon the already greatly depressed market. Hoyt, Spragues & Co. are the New York representatives of the A. & W. Sprague Manufacturing Company of Rhode Island, and their suspension was simultaneous. While their interests, however, are nearly identical, and the same financial difficulties hampered both, they are distinct firms. The A. & W. Sprague Manufacturing Company is an incorporated concern, in which Amasa and William Sprague own a controlling interest. Heavy demands and an inability to convert collaterals is the immediate cause of our suspension. We are preparing a statement, and until it is finished we cannot give further particulars."

It was a large brick building, the main portion of which was built fifty years ago, and has been remodelled and repaired at great expense very recently. The loss on the Court House will exceed \$40,000. The fire spread to the westward from its initial point, and destroyed a large store owned and occupied by Mr. R. B. Beela as general store. The next building, residence of P. G. Yought, the Hows sewing Machine Agency, Couver & Thompson's clothing house, and a dentist's office were destroyed. Total loss, \$175,000; insured for half that sum.
